

DF/NET RESEARCH, INC.  
*Helping people help people  
on a global scale*

October 19, 2016

Dear Colleagues and Clients,

We are pleased to announce the new name for DataFax. The 2016.X version will be the last release with the name DataFax.

When we began, fax machines were a revolutionary way to quickly capture and share data digitally. Our first product was called DataFax to convey the spirit of that revolution.

The digital world is evolving, and we are evolving with it. While our company name honors the history of our first product, it has come to mean so much more to our clients and partners. That's why we still proudly call ourselves DF/Net.

DF/Net is about data first. It's about deep focus and a dedication to flexibility. DF/Net stands for the innovative software and quality services that people have come to expect from us.

Now is the time to move on from DataFax to a new name for our growing software family.

DFdiscover is the new name of our software family, building on our 25 years of development.

It's time to discover your data.

Sincerely yours,

A handwritten signature in blue ink that reads 'Lisa A. Ondrejcek'.

Lisa Ondrejcek  
President

A handwritten signature in blue ink that reads 'Darryl Pahl'.

Darryl Pahl  
Vice President

A handwritten signature in blue ink that reads 'Eric Bosch'.

Eric Bosch  
Director of Software Development
